Nine of the Principal Cities and Municipalities of Western Canada are Standing Advertisements of the merits of the

Bitulithic Pavement

The Ideal Boulevard

This pavement is constructed by the latest scientific process, and excels all others in durability, ease of maintenance, and is more economical than Block.

Its rough, gritty surface makes it the ideal pavement for driving and motoring. Horses step out freely without fear of slipping, and motors do not skid when the pavement is wet.

Introductory

THE PUBLISHERS take pleasure in presenting herewith the Thirty-eighth Annual Edition of Henderson's Winnipeg Directory. A work of this kind to be valuable, must, in all respects, be thoroughly reliable and up-to-date; fully conscious of these essentials, the publishers have taken every precaution to secure the accuracy of the information.

Today the whole world is engulfed in a mighty vortex of tribulation and strife, and Canada is nobly and loyally doing her part to uphold the cause of justice and the protection of the weak. Thousands of her citizens have already bravely shed their blood at the front, whilst tens of thousands more are impatiently awaiting their turn in the trenches. The departure of so many with the Canadian contingents, together with the immense numbers of British reserves and reserves of all the Allies, who have left to rejoin the Colors, have been a deep drain upon Winnipeg, and it is therefore only natural that the Directory would reflect their loss and be smaller in consequence.

This Edition embraces the area of GREATER WINNIPEG, comprising the territory of the City proper, Elmwood, St. Boniface, Norwood, St. Vital, St. James, Assiniboia, Kildonan and other environs.

Attention is directed to the Miscellaneous Section in the front part of the volume.

The Advertising Department presents the names of corporations, firms and individuals who are making Winnipeg the great city that it is, and who are a power in the financial, industrial and commercial world of Western Canada.

This Advertising Department, together with the Classified Directory, contains an alphabetical list of all articles made and sold in Winnipeg and virtually makes it a city catalogue and forms a most complete buyer's guide.

The removals and changes in the information this year have greatly exceeded any the publishers have previously had to contend with in the compilation of the Winnipeg Directory, and have, of necessity, entailed an enormous amount of extra work.

Although the street section shows an increase in the number of residences and other buildings, there is a decrease, however, in the number of pages, resulting from an alteration in the style of the street sub-heading which enables more names to be inserted per page. The publishers feel that this change, which has been made to prevent the Directory becoming too cumbersome, will meet with the approval of the public.

The value of the street section is not appreciated, perhaps, by some who desire to find a certain house on a street unfamiliar to them to the extent it should be. By application of the following example the location of any street number can be found expeditiously: Suppose 368 Langside is wanted: refer to street section, Langside—glance down to 368, then to the nearest intersection to 368. It will be found that this number is on the west side of the street, four houses north of Portage, between Portage and Furby Place.

POPULATION OF GREATER WINNIPEG, 239,079

These figures deal with Greater Winnipeg, and are an estimate only, based upon the number of names the Directory contains. **This is not a census.**

The Publishers desire to thank their patrons and the general public for the courtesy extended, at all times, to their representatives, and to say that they fully appreciate the confidence which the business and professional men of Winnipeg have always shown in their publications.
